

Enhanced HotelSpot™ patent pending

OMNI-WiFi's Enhanced HotelSpot™ provides economic, broadband wireless Internet service to any type of hotel or any large, outdoor area, while offering the fastest speed available.

The Enhanced HotelSpot™ is specifically designed to provide wireless signals to multiple locations such as multi-building hotels with extensive grounds, resorts, RV parks, and campgrounds. The most versatile product of its type, it provides long-range connections of up to one mile to standard laptops.

Key Benefits:

- Fast and powerful 802.11 for long distance or 'unfriendly' Wi-Fi environments.
- Connects clients via standard Wi-Fi adapters.
- Connects clients near metal buildings and through nearby trees at line-of-sight.
- Provides excellent signal strength.
- Can be programmed for 125mbps "turbo" mode.
- Easy, flexible installation with clear instructions.
- Connects up to 100 concurrent users to the Internet with optional robust router.
- Easy-to-use MAC address automatic authentication system included.
- 24/7 technical support

Standard Equipment:

- 1 customized, high-sensitivity radio
- 1 directional 15 dbi antenna
- 2 power splitters and 2 regulators
- Up to 150 feet connection wires/cables
- Weather-tight enclosure
- 1 802.11 100mw amplifier

Optional Equipment:

- Robust router (provides highest number of connections)

Ideal for:

- Outdoor use
- Campuses
- Rows of wooden cabins or cottages
- Large resorts
- RV parks and campgrounds

Warranty Statement:

30-day money back guarantee.

2-year warranty on hardware including free technical support. Excludes physical and electrical damage.

Extended warranty available.
