

OMNI-WiFi's HotelSpot™ provides economic, broadband wireless Internet service to hotels, while offering the fastest connections per dollar available.

The HotelSpot™ is specifically designed to provide wireless signal in difficult environments including brick, concrete or cinderblock-constructed buildings. The most versatile product of its type, it is ideal for multi-floor hotels, motels, convention sites, and other hospitality centers.

## Key Benefits:

- Connects clients via standard Wi-Fi drivers and adapters.
- Proven to connect up to 40 concurrent users at high speeds.
- Provides excellent speed and reliability for most locations.
- Plug-and-play installation with clear instructions.
- Small, lightweight, self-contained, weather-tight system.
- Stainless steel and galvanized mounting hardware to withstand wind to 100 mph.
- Isolated power regulator provides superb reliability.
- MAC address authentication system for up to 128 users.
- 24/7 technical support

## Ideal for:

- Large, multi-floor hotels
- Brick, concrete or cinderblock construction
- Indoor or outdoor use

## Standard Equipment:

- 1 radio
- 1 180-degree directional 14 dbi antenna
