

HouseSpot™

patent pending

OMNI-WiFi's HouseSpot™ provides economic, broadband wireless service to residential homes, while offering the fastest speed per dollar on the Wi-Fi market today.

The HouseSpot™ is specifically designed to provide wireless signals to any room in the house from the location of the Internet modem. The most versatile product of its type, it provides fast, reliable Internet connections to 20 concurrent wireless devices.

Key Benefits:

- Extends the home network to multiple floors including basement and garage.
- Connects users to the home network up to five times faster than wireless routers.
- Provides all users with highest connection speed possible.
- Highly reliable and service free.
- Can be mounted in a closet, out of sight, or painted to match the decor.
- Easy, flexible installation with clear instructions.
- Self-contained weather-tight system.
- Easy connection into router or broadband modem.
- 24/7 technical support

Standard Equipment:

- Powerful OMNI-WiFi transmitter
- 210-degree directional 14 dbi antenna
- PoE injector with logic
- Weather-tight enclosure
- 24/7 technical support
- Power-over-Ethernet with 25-foot to 150-foot cable

Optional Equipment:

- Robust router

Ideal for:

- Residential use, wood and plaster or sheetrock construction
- Up to 20 concurrent, high-speed wireless connections
- Multiple floors and rooms
- Garage, basement, other hard-to-service areas
