

The OMNI-WiFi OfficeSpot™ connects up to 30 wireless users in an office environment. Specifically designed for metal-stud frame construction where wireless Internet is difficult or impossible to obtain, the OfficeSpot™ also works well in wood-frame, brick, concrete or modular office buildings.

When centrally located, the OMNI-WiFi OfficeSpot™ with its powerful OMNI-directional antenna broadcasts the fastest wireless connections possible to all users in the office. Broadcasts can be keyed so that only authorized users can connect.

**Key Benefits:**

- Provides reliable Wi-Fi to metal-stud offices.
- Connects users to the office network up to 3 times faster than wireless routers.
- Provides all users with good to excellent signal strength.
- Highly reliable and service free.
- Can be mounted in a closet, ceiling, attic, or painted to match the décor.
- Easy, flexible installation with clear instructions.
- Easy connection into router or broadband modem.
- Self-contained, weather-tight system.
- Automatic MAC address authentication system.
- 24/7 technical support

**Ideal for:**

- Office use – wood and plaster or sheetrock, brick or mortar construction
- Up to 30 concurrent wireless connections

**Standard Equipment:**

- Powerful OMNI-WiFi transmitter
- 14 dbi antenna
- Power over Ethernet (PoE)
- 50-foot PoE cable
- Robust isolated power supply
- Weather-tight enclosure
- 24/7 technical support

**Optional Equipment:**

- 100-foot PoE cable

**Warranty Statement:**

30-day money back guarantee.

2-year warranty on hardware including free technical support. Excludes physical and electrical damage.

Extended warranty available.
