

Park/CampSpot™

patent pending

OMNI-WiFi's Park/CampSpot™ provides economic, broadband wireless Internet service to RV parks, campgrounds, state parks, and other recreational facilities. This product offers the fastest speeds possible for multiple Wi-Fi users.

The Park/CampSpot™ is designed to provide wireless signals for up to 100 concurrent connections. This product can also be used for cabins or cottage settings and camps or parks with indoor/outdoor recreational facilities.

Key Benefits:

- Connects wireless clients via standard and new wireless adapters for 802.11 b/g/n.
- Connects up to 100 concurrent users when deployed with OMNI-WiFi router.
- Plug and play (See customer testimonials.)
- Fully self-contained transmitter electronics are placed inside weather-tight NEMA-4 enclosures.
- Wind resistant to 125 mph.
- Custom, isolated power regulators provide superior system reliability.
- Built-in authentication system.
- 24/7 technical support.

Ideal for:

- Campgrounds
- RV Parks
- State Parks
- Roadside Businesses

Standard Equipment:

- 1 customized high sensitivity radio
- 1 high-power antenna
- 1 Power-over-Ethernet (PoE) injector
- 1 robust power supply and power regulator
- Up to 150 feet connection wires/cables
- Weather-tight enclosure

Optional Equipment:

- Invoicing system
- Router for up to 100 concurrent users

Warranty Statement:

30-day money back guarantee.

2-year warranty on hardware including free technical support. Excludes physical and electrical damage.
