

## SecuritySpot System™ Patent Pending

OMNI-WiFi's SecuritySpot System™ is an encrypted, wireless gateway for security cameras. This system sends data from up to 5 IP cameras to one wireless, head-end data collector, up to 16 miles away. The security camera's control software connects directly to the data collection unit via Power-over-Ethernet through a management computer such as the OMNI-WiFi Security Management Computer. Since the SecuritySpot System™ uses a private network and does not issue SSID, it is invisible to local, remote, wireless and wired network users. For a complete system, simply add your choice of IP security cameras.

### Key Benefits:

- Sending units connect IP cameras to camera control, processing and storage through encrypted wireless tunnels.
- “Invisible” encrypted tunnels attach each sending unit to the collector unit.
- Requires only standard IP cameras to obtain fast speeds.
- Collector unit plugs directly into control computer running camera control software.
- Full duplex operation ensures fastest speeds for data transfer, collection and storage.
- Power-over-Ethernet included for all sending units and the collector unit.
- Easy, flexible installation with clear instructions.
- Self-contained, weathertight collector unit and sending units, NEMA-4 and IP-65 or IP-66.

### Standard Equipment:

- Weathertight NEMA-4 enclosures
- Power-over-Ethernet (PoE)
- Custom power regulators
- Ethernet connection cables
- Preconfiguration and easy-to-follow manual
- 1 camera sending unit and
- 1 data collector for one-mile operation

### Optional Equipment:

- Additional camera sending units
- 5-mile or 16-mile sending units
- OMNI-WiFi Security Management Computer

### Ideal for:

- Indoor/Outdoor use
- Homes and Condos
- Businesses with multiple buildings
- Up to 5 IP cameras concurrently when multiple receivers are used.

### *Warranty Statement:*

30-day money back guarantee.

2-year warranty on hardware including free technical support. Excludes physical and electrical damage.

Extended warranty available.
