

4-Watt HotelSpot™ Patent Pending

OMNI-WiFi's HotelSpot™ provides economic, broadband wireless Internet service to hotels, while offering the fastest connections per dollar available.

The HotelSpot™ is specifically designed to provide wireless signals in difficult environments including brick, concrete or cinderblock-constructed buildings. The most versatile product of its type on the market, it is ideal for multi-floor hotels, motels, convention sites, and other hospitality centers.

Key Benefits:

- Connects clients via standard Wi-Fi drivers and adaptors.
- Proven to connect up to 40 concurrent users at high speeds.
- Provides excellent speed and reliability for most locations.
- Plug-and-play installation with clear instructions.
- Small lightweight, self-contained, weather-tight system.
- Stainless steel and galvanized mounting hardware to withstand wind to 100 mph.
- Isolated power regulator provides superb reliability.
- MAC address authentication system.
- 24/7 technical support

Ideal for:

- Large, multi-floor hotels
- Brick, concrete, or cinderblock construction
- Indoor or outdoor use

Standard Equipment:

- 1 radio
- 1 150-degree directional 14 dbi antenna
- 1 Power-over-Ethernet (PoE) injector
- 1 power supply, PoE splitter and regulator
- Up to 50 feet connecting cable
- Weather-tight enclosure

Optional Equipment:

- Additional 150-degree directional antenna
- Invoicing system
- Up to 200 additional feet connecting cable
- Hardware router to provide connections to up to 100 concurrent users.

Warranty Statement:

30-day money back guarantee.

90-day warranty on hardware including free technical support. Excludes physical and electrical damage.

Extended warranty available.
