Inventory:

1 SweetSpot5™ access point

1 (short) Ethernet cable

1 Power cable

STEP 1
Plug the short Ethernet cable into the WAN port on the underside of the SweetSpot5™.

STEP 2
Plug the other end of this cable into an available port on your broadband modem.

STEP 3
Plug the power adapter into the socket on the bottom of the SweetSpot5™.

STEP 4
Plug the power adapter itself into 100 volts house current.

STEP 5
Place the SweetSpot5™ access point in a convenient location.

STEP 6
Wait 45 seconds for the SweetSpot5 to self-test.
